I. Greetings

The Opto-Electronics and Communications Conference (OECC) its 23rd year in 2018, is one of the foremost international conference for engineers and researchers working in the fields of optoelectronics and optical communication systems. The Conference has been providing an outstanding international forum to present and discuss progresses in research, development and application of these areas over the years. For OECC2018, to be held in Jeju Island, Korea from July 2 to 6, 2018. We are making every effort to uphold the standard of excellence that has been the hallmark of OECC and to prepare an exciting and worthy conference for everyone.

We, Korean Organization Committee of OECC2018 are delighted that OECC2018 will be held back at Singapore after the 2017 conference. We hope you will come and enjoy the conference in Jeju, the biggest and most beautiful island of Korea.

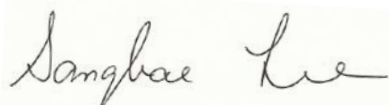

From our collective experiences, we realize that a well-thought-out and executed exhibition can greatly enrich the experience of the conference attendees, and of course, exhibitors would in turn have an opportunity to benefit from being able to attract numerous potential customers. As such, we the organizers of OECC2018 would like to invite companies from around the world to showcase their wonderful products and services by participating in the OECC2018 exhibition. We invite you to examine the material below outlining the exhibition and hope that your company would join us at OECC2018.

I look forward to meeting you in Jeju, Korea.

Sincerely,

Sang Bae Lee
